**AN UPDATE ON THE**  
**GOOSE CREEK**  
**SANITARY SEWER EXTENSION PROJECT**

# GOOSE CREEK

## SANITARY SEWER EXTENSION

### WHAT

Charlotte Water (CLTWater) is in the process of designing a project to enhance wastewater service and initiate public wastewater treatment service in an area predominantly using septic tank systems. The project is called "Goose Creek Sanitary Sewer Extension to Fairview Road."

### WHEN

The design phase is expected to be complete by summer 2020, at which point construction will begin. Construction is expected to be complete in late summer 2021.

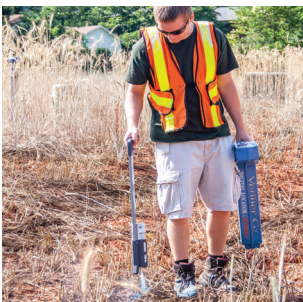

### WHERE

The project will connect existing and future sewer lines along Goose Creek until it reaches Mint Hill Veterans Memorial Park (see location map below).

### ACTIVITIES TO EXPECT

Authorized representatives of CLTWater may be working on or near your property to conduct surveys, examination and other investigations as may be necessary. All field crew members are instructed to wear identifying clothing, and their activities should not inconvenience you in any way. Residents may also see:

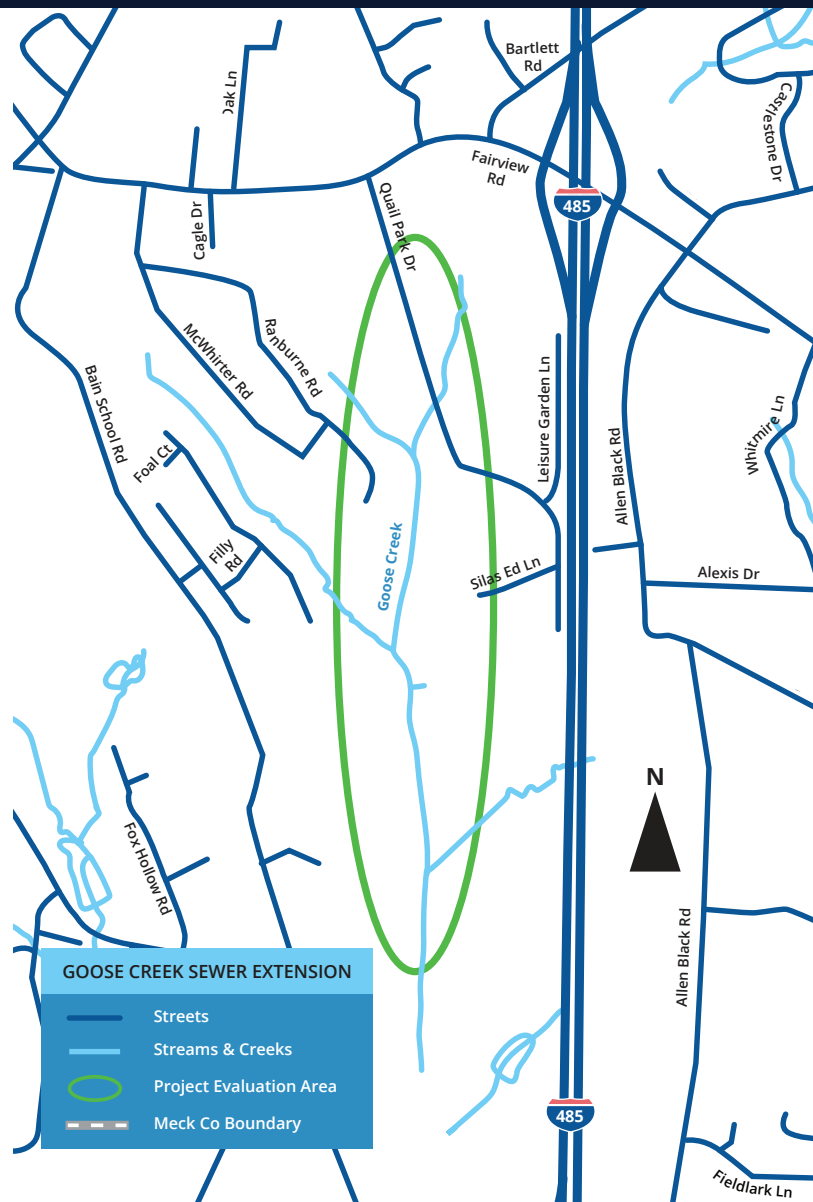

- Minor clearing activities in the area
- Survey stakes or flags
- Paint markings on the ground
- Small machinery used for geotechnical borings

### NEXT STEPS:

#### EASEMENTS

A small number of properties have been identified for a potential permanent easement or temporary construction easement agreement along the proposed project route. An easement agreement allows CLTWater usage of part of a property owner's land after a legal agreement has been reached. CLTWater representatives with TELICS will be in touch with those property owners to discuss the easement process.

**QUESTIONS?** Please visit the project website at [www.charlottewater.org](http://www.charlottewater.org) for updates on progress. Click on Projects, then Construction, then Goose Creek Sanitary Sewer Extension to Fairview Road. If you have a question, please contact Engineering Project Manager Mac McClanahan at 704-995-7489 or [Jeffrey.McClanahan@ci.charlotte.nc.us](mailto:Jeffrey.McClanahan@ci.charlotte.nc.us).
